

Environment, Health & Safety Policy

The protection of the environment and the health and safety of our employees, customers, suppliers and the communities in which we work, are among Fabco's most critical concerns.

We will provide a safe and healthful workplace and protect the environment. We will ensure that pertinent environmental, health and safety issues, which include a commitment to continual improvement and pollution prevention, are incorporated in the planning and execution of the Company's business. We will conduct our business in compliance with company and all other applicable environment, health and safety (EHS) regulations.

Compliance with this Policy is the responsibility of every Fabco employee.
